## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 6/26/08 has been entered.

### *Election/Restrictions*

Claims 1-13 and 45-62 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/23/06.

### *Claim Rejections - 35 USC § 101*

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 14-44 and 63 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The method claims do not provide a useful, concrete and tangible result. The claims are just a mere manipulation of data. The claims do not recite a tie to another statutory class (such as a particular apparatus) or do not transform underlying subject matter to a different state or thing (both are indicators that a process is non-statutory). Due to the reasons listed above, the claims are directed to non-statutory subject matter.
